CASE STUDY

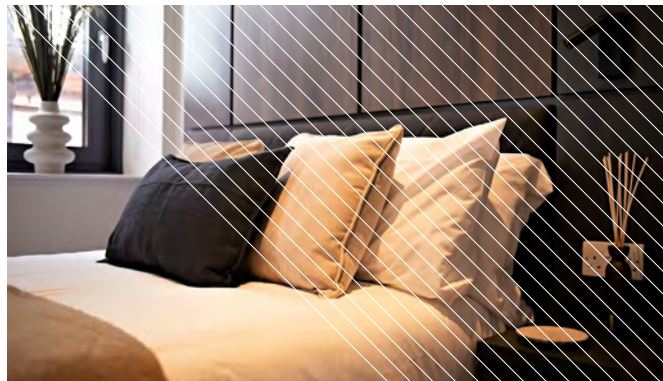

Q Three (Leeds)

Taking **3** teams **35** hours to fit out **133** exclusive apartments – that's **133** mattresses, desk chairs, sofas, coffee tables and dining tables and **266** dining chairs.

CASE STUDY

Q Three (Leeds)

Brief: To fit out 133 modern apartments including sofas, beds, dining tables and chairs and study furniture.

Instore originally furnished several show flats for the developer to an exceptional standard with high-end furniture and top-of-the-range appliances to compliment the custom-made finishes showcasing a sleek living experience. We were subsequently given the green light to furnish the entire block of 133 units with a bespoke package of sofas, mattresses, coffee tables, dining sets and study chairs throughout.

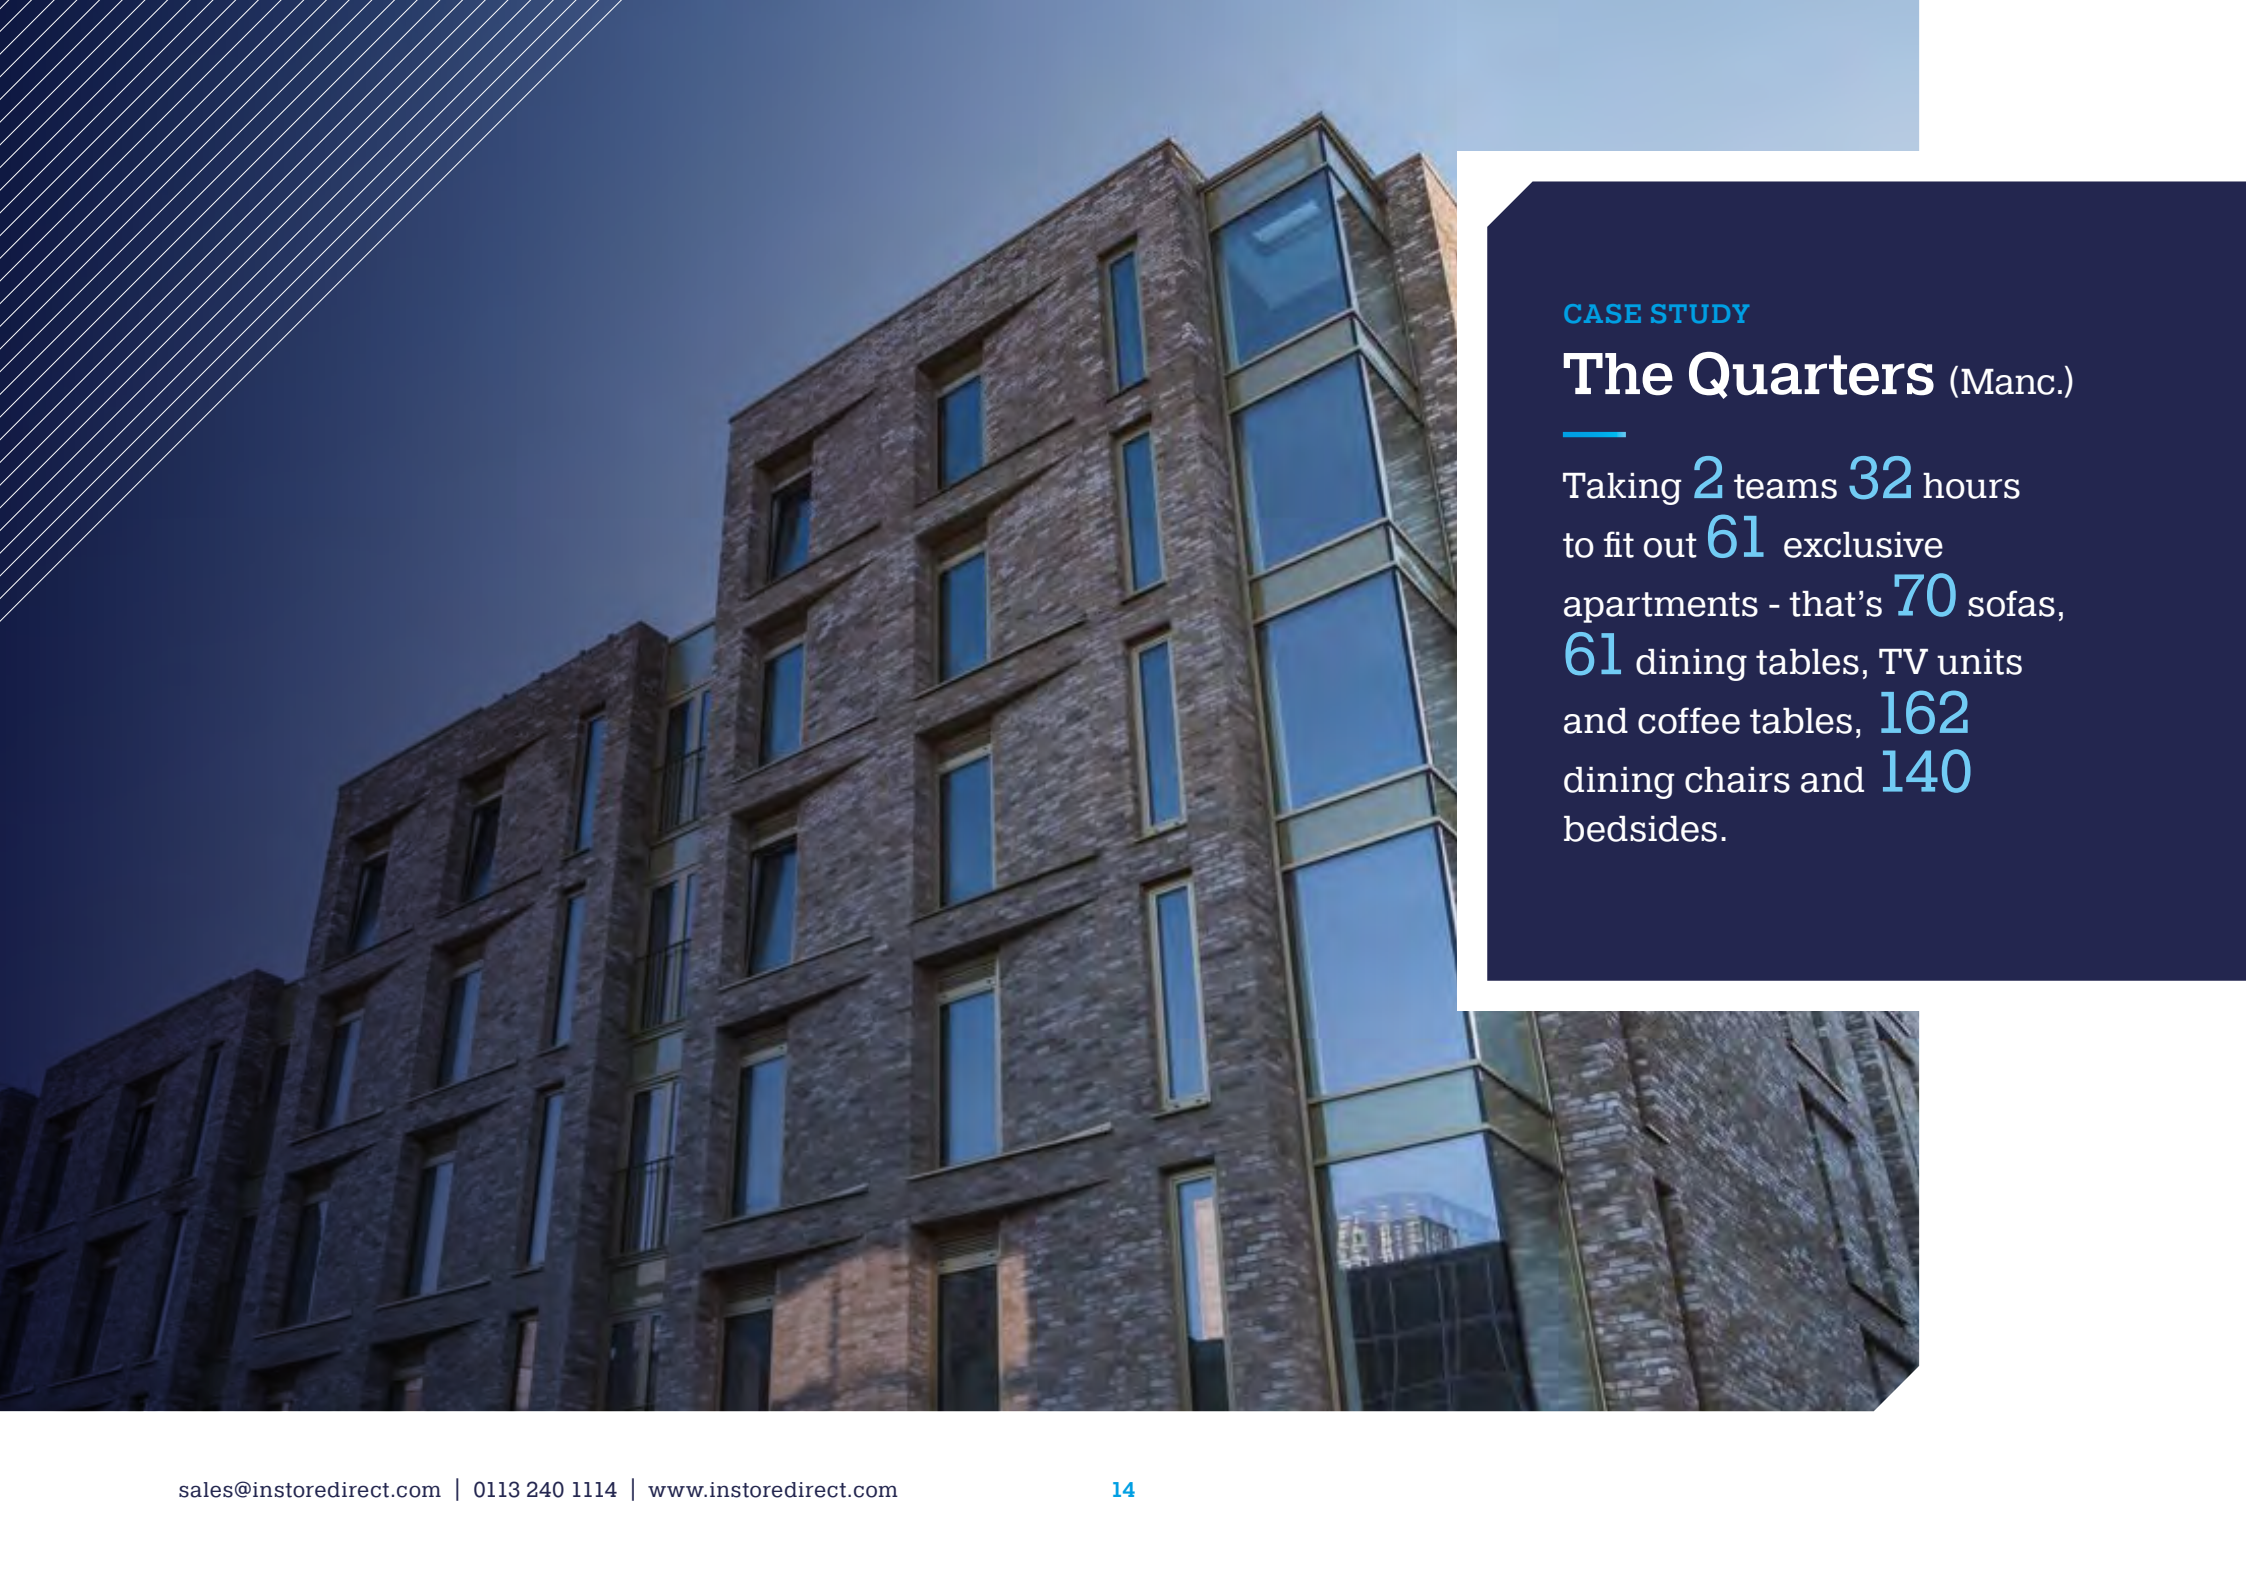

Seeing work complete on this development is fantastic for the entire project team and especially because it's given the building a whole new lease of life. We designed the scheme to combine hugely impressive communal areas with stunning apartments, and those on the upper floors really maximise their far-reaching views across the city. The fact that so many of the apartments are now already reserved speaks volumes about the quality that flows through the entire development.

Sustainability

“ We’re committed to fostering a more sustainable future from the procurement of our materials to the entire lifecycle of our products. ”

JAMES GREEN – OPERATIONS MANAGER

Instore – we’re striving for a more sustainable future.

How do we do this?

Working in partnership with ‘*Ecologi*’ - the UK’s leading all-in-one climate platform, we restore five square metres of wildflower, wetland and ancient woodland for every package we provide.

Old mattresses are taken to a local mattress processing centre where they’re broken down into their component parts for recycling.

All cardboard waste is taken to a local recycling centre for processing and converted back into reusable corrugated board.

Wherever possible, we aim to give used furniture a second life by donating it to local charities who redistribute it to people who are most in need.

Here's what our BTR clients think...

BTR
& INVESTOR
SALES

From the outset, I've been delighted with Instore's product and service.

From proposal to procurement, the whole process was seamless. The delivery and installation teams were respectful on site and worked well amongst the many other contractors, even when the lifts were out of service, they got on with the task at hand with minimal fuss.

Our investors and residents alike are extremely happy with their furniture packages and we are already looking forward to our next project.

QUALIS DEVELOPMENTS

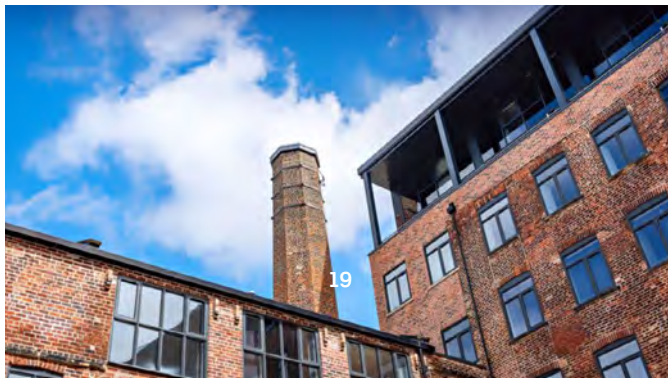

Our collaboration with Instore Direct on The Quarters in Manchester was nothing short of exceptional.

Their team transformed our BTR block with stylish, durable furniture that perfectly complement our vision of modern urban living. The professionalism and efficiency displayed by the entire team was unparalleled, ensuring the project was completed seamlessly, on time, and within budget. Their dedication to quality and customer satisfaction has not only enhanced the living experience at The Quarters but has also, in our opinion, set a new standard for contemporary living in the city.

We are immensely pleased with the outcome and look forward to working together on future projects. Their contribution to the success of our BTRs has been invaluable.
